## netPark Launches New Truck Parking Software Solution

We are excited to announce that we have just launched our Truck Parking Software Solution for truck parking owners and business operators!

This strategic move into truck parking comes at a time when our society is moving products more than ever by semi-trucks. The trucking industry requires a safe and secure place to park their trucks and trailers while not in use. Truck Parking is similar to other forms of parking, but it does have its differences and netPark understands this. With multiple workflows to allow for trailer access control, monthly parking, reservations, integrated ACH and credit card payments, assigned lot spaces, inventory audit with real-time reporting and metrics. We have the technology to manage these scenarios and more. Customers can also manage their accounts and payment methods via a white-labeled monthly parking and reservation website.

If you are interested in learning more about our Truck Parking Software Solution, please visit [www.netpark.us/truck-parking](http://www.netpark.us/truck-parking) or contact our staff at 833-638-7275 or e-mail [sales@netpark.us](mailto:sales@netpark.us).
